

- 1: These instructions may not cover all details or variations. For additional information contact Beta-calco.
- 2: Luminaires must be installed in accordance with national electrical code and local regulation.
- 3: Disconnect the power before installing the fixture or servicing.
- 4: Min 90°C supply conductors.

Relamping the LED:

- Turn off the power before replacing the LED
- For easy access to LED, remove the diffusers

REPLACEMENT LED BOARDS

- Remove wires from the connector
- Remove the mounting screws of LED BOARD and the LED BOARD
- install the new LED BOARD and secure the mounting screws
- Plug wires to the connector, LEDs are polarity sensitive!
