

FIXTURE COMES PARTIALLY ASSEMBLED.

Ensure electrical circuit is disconnected before installation.

Luminaires must be installed in accordance with national electrical code and local regulation.

1. Attach the ceiling plate to the junction box and make the necessary wiring connections to the terminal blocks.
2. Attach the ceiling plate to the ceiling using appropriate fasteners (not included) to the ceiling plate's mounting holes. Use all 4 indicated mounting points.
3. Secure gripper to suspension bracket using the locknut and lock ring (Fig. 1).
4. Pass the power over aircraft cable through the gripper and make all necessary electrical connections.
5. Lift the canopy into place and secure with the magnets.

Note: The canopy is used to cover the branch circuit/junction box.
