

FIXTURE COMES PARTIALLY ASSEMBLED.

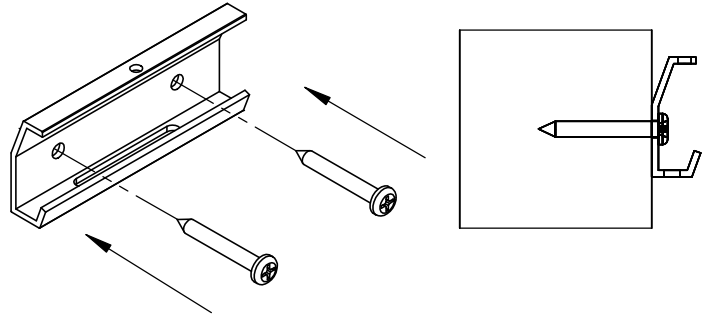

Ensure electrical circuit is disconnected before installation.

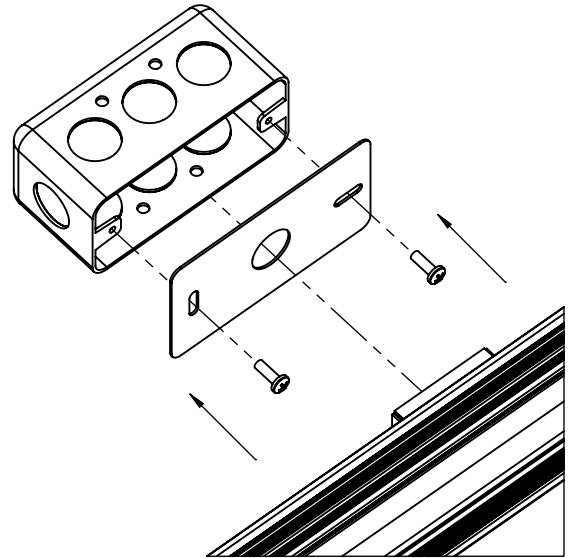

Luminaires must be installed in accordance with national electrical code and local regulation.

Wall Installation

1. Fasten the wall bracket to the wall using appropriate fasteners (not included) in accordance with the structure of the wall.

2. Make appropriate wiring connections between fixture and power box.
3. Mount junction box cover using appropriate fasteners (not included).

4. Install fixture into the wall bracket and secure in position using the provided screws.
