

1 IMPORTANT NOTE

Fixture comes partially assembled.

⚠ Ensure electrical circuit is disconnected before installation.

⚡ Luminaires must be installed in accordance with National electrical code and local regulation.

2 DRIVER REPLACEMENT

STEP 1:

Loosen the set screws, rotate and remove hold down plates at both ends of the fixture.

STEP 2:

Lift uplight module or cover plate (depending on fixture type), but do not disconnect. Once the module/plate is lifted up, the driver(s) is(are) accessible.

STEP 3:

Remove the screws and washers holding the driver(s).

STEP 4:

Lift driver(s) and disconnect all wiring.

STEP 5:

Connect wiring to new driver(s).

STEP 6:

Follow previous steps in reverse order to reassemble the fixture.
