TRAY VERSIONS

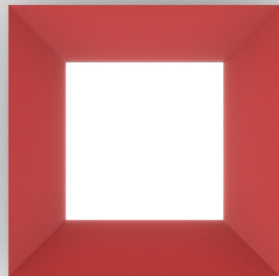

TRAY is a fresh contemporary alternative to traditional square or rectangular light box style fixtures. With sloped back and side surfaces, Tray creates a floating effect when mounted on ceilings and depth when viewed from non-frontal angles.

TRAY

TRAY portrays a picture frame design.

Our intention was to evoke the idea of empty picture frames, characterized by a similar concave design for use in high end environments.

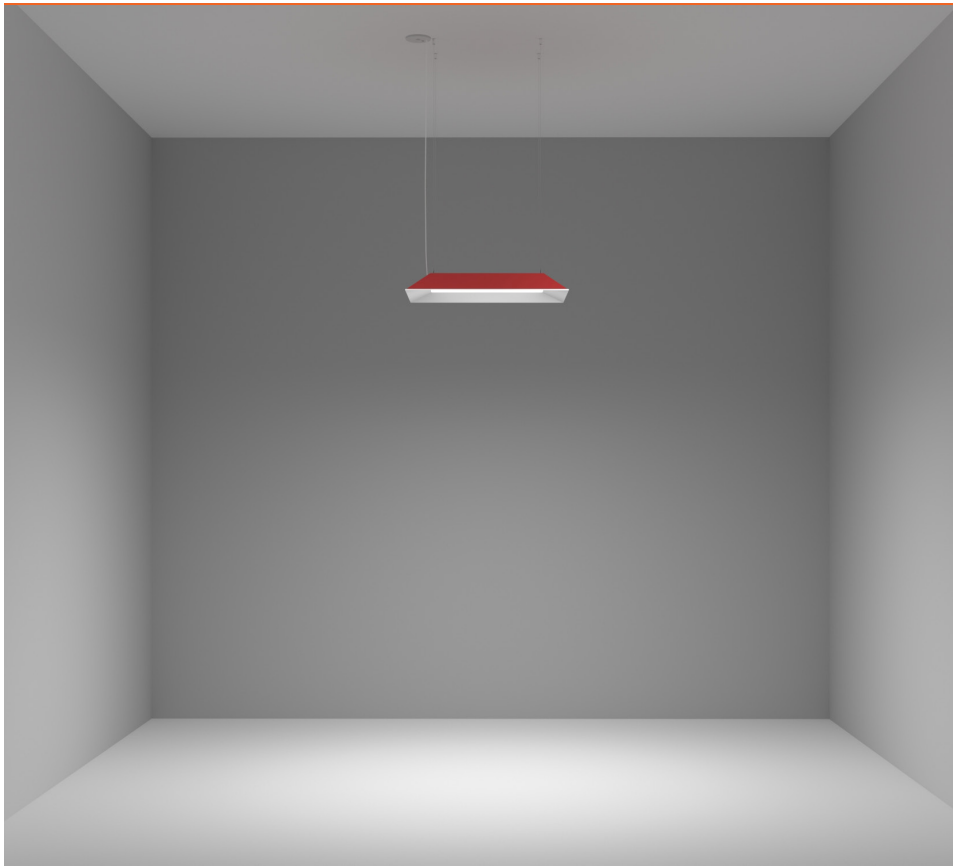

TRAY SUSPENDED

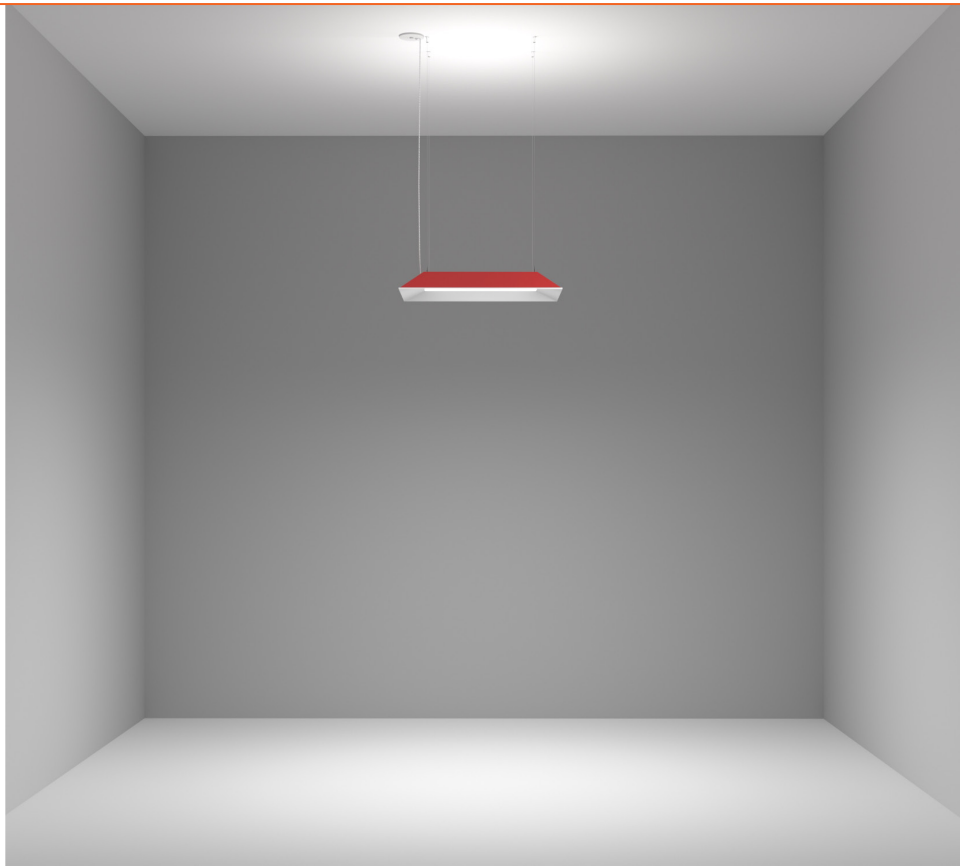

- 💡 Direct and Direct/Indirect lighting options
- 💡 Delivered lumens ranging from 800 to 19,000
