MATREX is a family of spotlights packed with power for projecting light at great distances. With best-in-class thermal management and hidden heat sinks, MATREX's form factor is significantly smaller than traditional spotlights. Multiple mounting systems are available, providing a variety of functions that work in a range of applications, especially those with multiple ceiling heights. Suspension points originate from the sides allowing for unobstructed uplight. The revolutionary design delivers industryleading performance from a significantly reduced form factor. The snoots are effective in controlling light spill and reducing glare.

#### **GENERAL SPECIFICATION**

#### Body and trim

Steel and aluminum.

#### Suspension

Steel cables.

#### Integral emergency system

Emergency option provides a 1.5 hour (3 hours for EU) emergency lighting facility. The self contained system includes the inverter module, NiCad batteries, LED charge indicator and test switch (NA only). Integral emergency EU luminaires have a 17" (434mm) x 8.3" (210mm) x 2.3" (58mm) canopy with LED charge indicator. Not available with a 347V supply. Drivers are in the canopy.

#### Mechanical

Luminaires mount to a junction box or switch box (by others - North America only), depending on canopy selection.

#### **Delivered lumens**

Delivered lumens & Ipw based on 4000K, CRI 80+.
