1 DESCRIPTION

MICRO RING DIRECT sets a new performance benchmark in decorative rings, boasting a best-in-class lumen efficacy of 104 LPW. This performance is not just about brightness but about the quality of light. Its high-efficiency, flexible diffuser snugly fits the frame, eliminating any light leakage while ensuring a uniform and seamless diffusion of light. The slim design of **MICRO RING DIRECT**, available in 6 diameters ranging from 2' to 7', makes it ideal for crafting grand, multi-tiered circular installations. This versatile ring is part of the larger **MICRO RING** family, which includes five additional light emission options for layered lighting effects. Whether used as a solitary statement piece or in a composition, **MICRO RING DIRECT's** impact is undeniable. Moreover, **MICRO RING DIRECT** addresses acoustic needs with an optional acoustic panel for sizes up to 4' in diameter. These panels are specifically designed to reduce echo and reverberation commonly found in modern open-plan spaces, areas with exposed concrete, open ceilings, and rooms with large windows. For a touch of whimsy and creative flair, **MICRO RING** can be combined with other shapes like MICRO TRIANGLE or MICRO QUAD, adding a dynamic and playful dimension to any space.
