RAIL-LITE™ - TRIMLESS (CONTINUOUS)

RAIL-LITE™ - TRIMLESS (CONTINUOUS)

The trimless channel system blends into architecture and conceals the light sources for a seamless look. **RAIL-LITE** sections connect solely mechanically and can run distances as required for the space with L, T, and X connections to feed light where it is needed. **RAIL-LITE** is ideal as a retail solution with ultimate beam control and high color rendering. The spots can be adjusted laterally within the channel to target more accurately and the angling of the beam adjusts in 5° increments up to 45°. A CRI of 90 displays the true color of objects making merchandise more distinguishable. With Twist'N'Lock vacuum-plated reflectors that aid in quick on-site switching, this luminaire is capable of narrow, medium, and wide beam illumination.
