

# STRIPE™

## FULL SPECIFICATION SHEET

FIXTURE TYPE

FIXTURE CODE

QUANTITIES

### 1 DESCRIPTION

**STRIPE** was designed as a minimalist, graphically abstract accessory for surface mounting. By combining two of the most basic geometries, a cylinder and a line, we achieved a powerful and expressive design despite its modest dimensions. The linear light source housing was kept extremely narrow and as it faces the wall or ceiling, it eliminates the need for large-surface diffusers required to achieve comfortable glare-free light. The central hub, which creates the necessary backlight offset distance, also acts as the driver compartment and because of its cylindrical form, it also allows the lamp to be oriented in any direction – vertically, horizontally or diagonally, again adding significant value to the visual appeal of the luminaire. The two part construction allows for a multitude of two-tone finish options.

### 2 OPTICS & FEATURES

Wall - Stripe

Ceiling - Stripe

Declare

### 3 APPROVALS

### 4 GENERAL SPECIFICATION

#### BODY

Extruded and die-cast aluminum.

#### FINISH

Powder coated.

**SENSORS**

Consult factory regarding sensor compatibility.

**DRIVERS**

Integral, HPF electronic, 120-277V (EU-240V). The driver is integral to the fixture housing.

**DELIVERED LUMENS**

Delivered lumen & LPW based on 4000K(min 80 CRI).

**APPROVALS**

ETL C/US. CE, Damp Rated.

**SUSTAINABILITY**

Designed for on-site LED board, driver, and optic replacement.

Contact the factory for maintenance documentation.

**LENS**

Frosted acrylic.

**MECHANICAL**

Luminaires mount directly to a J box (by others - North America only).

**REPORTED L70 @25°C (77°F)**

>60,000 hrs.

**DESIGN**

US Pat. No. D886,356.

**5 DESIGN OPTIONS**

**FINISH**

<sup>1</sup> Longer than normal lead times may apply, consult factory.

**ARM FINISH**

<sup>1</sup> Longer than normal lead times may apply, consult factory.
